

ANZHS HEADACHE ANNUAL SCIENTIFIC MEETING 2021

13 - 14 MARCH 2021

Course synopsis

This is the first part of the ANZHS educational and scientific meetings in 2021. The first day will be a clinical training day, targeting headache clinicians hoping to improve their knowledge and clinical skills in headache management. The second day will be scientific plenaries with an expert panel discussion at the end of the day to explore the learnings and answer any questions from the online audience. The sessions cover aspects of pathophysiology, unusual headache syndromes, practical tips, management for headache disorders and current controversies.

This first weekend of the ANZHS Headache Annual Scientific Meeting 2021 will take place as a virtual meeting. Closer to the event date, we will provide you with login details to our event platform where you can access the full list of speaker bios, connect with peers, review the agenda, and watch the live stream. There will also be live Q&A and polling, all through the platform.
